berret • ra(oupeau

The **Berret-Racoupeau Yacht Design** is specialised in performance yachts. Several new projects in the 40' to 180' range are currently underway. Backed up by more than 30 years of experience and more 15,000 yachts sailing worldwide our team of ten people is familiar with the latest marine technology and innovation.

3 production boats have been recently launched:

Océanis 48': Chantier Beneteau.

Amel 55': Chantier Amel.

Sanya 57': Chantier Fountaine – Pajot.

Several projects are on the drawing board:

We have developed partnership with the following shipyards:

Alu Marine: we designed a range of aluminium multi-hull, the **Havana 72, 60 and 53.**

CNB lagoon custom: we designed 2 sailing catamarans, **Code E 76' and 100'** and a **160' power cat.**

CNB: Evoe Yachts is a line of 5 new models – 85', 100', 120', 140' and 180'.

Custom boat: **Bougainville 72'** is under construction at Claasen Jachtbouw B.V. in Holland. She is a very fast and comfortable yacht for race and cruising.

CUBISYSTEM is **THE INNOVATIVE FLOATING SOLUTION**
for modular floating pontoons and platforms.

CUBISYSTEM is a French company, recognised for its experience, expertise, and references from all over the world (Western Europe, Eastern Europe, Southeast Asia, North America, South America, Africa...).

The **CUBISYSTEM** modular floating system is used in a wide range of applications: harbour and marina pontoons, drying out pontoons, fish farming, industry and public works, leisure pontoons and sports clubs, bathing platforms, sea pools, dry docks for PWC and motor boats, military applications, helicopter landing pads, anti-pollution booms, events, floating performance stages for shows, barges for firework displays, floating homes, platforms for divers and underwater operations, self-propelled barges...

CUBISYSTEM modular floating systems can be **purchased** as permanent installations, or hired as temporary installations.

All **CUBISYSTEM** products and services are **certified** and **guaranteed**.

We operate all over the world. We offer a full service, from initial study to final installation, in order to satisfy your requirements and expectations to the fullest.

First French Sailmaker by its turnover, **Incidences** is also leader in manufacturing one offs and is successful in all areas from inshore racing to offshore events, Super yachts, Classics, Old Gaffers.

From super fast 60' multihulls to Classic yachts, from Open 60' monohulls to Old gaffers, from professionals to amateurs, not to mention mega multis for around the world records, a very wide range of contemporary yachting in its largest diversity is trusting Incidences to achieve their goals: Bruno Peyron, Franck Cammas, Michel Desjoyeaux, Vincent Riou... and a lot more!

Incidences owns today 4 production plants in France: Brest, La Rochelle, Méditerranée (Fréjus) and Lorient. About 100 people work daily on over 7,000 sqm with the most up to date machinery.

Incidences sails can also be taken care of in Martinique, Saint Martin (Caribbean), along with Nouméa (New Calédonia), in Germany and in Ireland.

JFA
YACHTS

JFA is located in Concarneau (South Brittany on the Atlantic Coast) in France. We are building both custom sailing yachts and custom motor yachts from 70' to 200' either monohull or multihull. We are experienced on diverse building materials. Currently, **JFA** is building 2 new yachts: the SY VPLP 110' Catamaran, out of carbon and the SY Long Island 85', a semi custom catamaran made in aluminum and composite. In 2011, **JFA** delivered a new motor yacht of 141' out of aluminium named Axantha II.

My Outdoor NV for my boat:

In our factory in Saint Gilles Croix-de-Vie, we design 500 new models and manufacture almost 15,000 special outdoor protections per year. We have decided to enhance your comfort and safety onboard. Our 1,200 dealers over the world are here to guide you in your choice. Our expertise has been acquired over 35 years of collaboration with major boat builders, and close attention to boats owners, with whom we dialogue directly.

The huge variety of boating practices pushes us to imagine a wide range of protections suited to sunny climes as well as extreme weather, uncompromising sports people or long-distance travellers... Added to our digital data on over 6,500 models, our in-depth knowledge of all boating practices means that we have become, and remain the European leader in our market.

OCEA is considered today as a pioneer in aluminum shipbuilding and enjoys a strong and reliable reputation in the professional shipbuilding sector. With 4 production sites located along the French Atlantic Coast, **OCEA** Shipbuilding delivers annually 10 to 15 vessels, up to 60 m long, ranging from Fast Patrol Boats and Passenger Vessels to Motor Yachts. Professional knowledge combined with its aluminum expertise enabled **OCEA** to conceive two ranges of yachts: **OCEA** Commuter and **OCEA** Classic. Our yachts constitute real value-added products, with excellent stability underway and at anchor, great ease to manoeuvre, speed of 10 to 20 knots, low fuel consumption, transatlantic ranges, and low maintenance. At **OCEA**, impelled by our care for the sea and its preservation, we are strongly committed to designing environmentally-friendly yachts.

T-Top designs and manufactures in France sun and outdoor protection accessories for sail and power boats. The main European shipyards have chosen **T-Top** for its reliability in the custom-made design, quality and service.

A boat equipped with **T-Top** products can be recognized through its style, the homogeneity of its shapes, and the quality of the materials used.

Sprayhoods, biminitops, console covers, flybridge protections, cockpit and complete boats' enclosures are some major products of **T-Top**'s range.

Style in Boat is the brand and the BtoB distribution network which meets boat owners' requirements. The compliance to conformity and the service are the main features of Style in Boat products.

CONTACT

Pierre SCHIPPER

E-mail: victoria@victoria-yachting.com

Victoria Yachting was started 25 years ago by Alain Lebel, keen sailor, when he realized that a growing number of yachtsmen were longing for COMFORT ON BOARD.

The company produces an extended line of mattresses and linen, all made to measure on its premises in France.

Mattresses range from latex and memory foam to state of the art pocket springs.

Linen is made of Egyptian cotton percale or satin, in a vast choice of colors and finitions.

Sleep on board like you do at home, ask **VICTORIA YACHTING**.
