YOUR PARTNER IN CNC MACHINING

Since 1996, EVMP is specialized in the high precision machining of complex mechanicals parts into small and medium quantities.

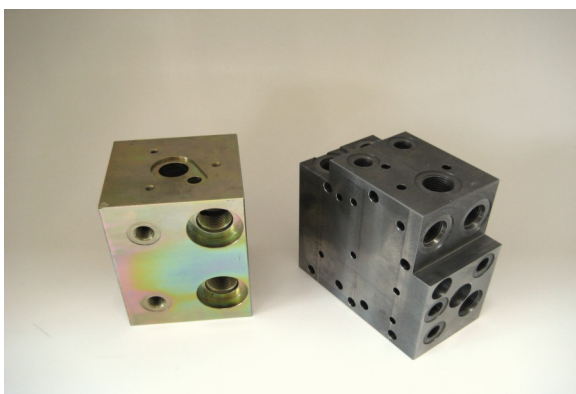

- Our speciality are expressed in the manufactory of hydraulic blocks and copper tracks for the electric units.

- We are able to product your hydraulic blocks and component out of steel, aluminium and cast iron up to 400x400x400 mm.

Our company proposes diversify services such as :

-Grinding

-Heat treatment and surface treatment

We work in different activities :

-Hydraulic

-Pneumatic

-Electric industry

-Aeronautic

-Agriculture automated machine

-Medical

General Mechanics Reaming

YOUR PARTNER IN CNC MACHINING

Our machine park is the object of regular investment in able to offer you the prices and quality you looking for

**FANUC ROBODRILL
4 AXES
15 OUTILS**

**OKUMA MB 46
40 TOOLS
WATERING CENTER HP
3 AXES**

YOUR PARTNER IN CNC MACHINING

**OKUMA MB 56
40 TOOLS
WATERING CENTER HP
3 AXES**

**KITAMURA MYCENTER
20 TOOLS
WATERING CENTER HP
3 AXES**

We are able to analyse and adapt the design of your parts in order to obtain the best results, combining an optimal quality and a optimise manufacturing cost.

We are at your disposal for any estimate of your mechanical complex parts and we commit ourselves to answer on your request, as soon as possible
